Quitar el polvo al tejido con un aspirador o un cepillo suave no metálico. Lavar con un cepillo suave o una esponja utilizando agua jabonosa. Aclarar abundantemente con agua clara (chorro de agua). Dejar que se seque bien el tejido al aire libre en posición desplegada. Si el tejido puede desprenderse de su soporte, la limpieza puede realizarse a máquina a una temperatura no superior a 40°C.

Remove dust from the fabric with a vacuum cleaner or soft, non-metallic brush. Wash with a soft brush or a sponge, using soapy water. Rinse copiously (spray) with clean water. Allow the fabric to air dry completely, well spread out. If the textile can be removed from its base, it may be machine-washed at a temperature no higher than 40°C.
